Studio price list

SVG files you can upload. Not a native Canva template.

A square price list for Northlight, a fictional photo studio. Three offers: a product set, a founder portrait, and a half-day. Prices are samples in rand.

Files and sizes

File	Pixels
price-list.svg	1080 x 1350

How to edit

1. Replace the three offers and the prices.
2. Remove an offer rather than shrinking the type to fit a fourth.
3. Put the booking rule in the footer.

Canva, Figma, and print

Create a design at the pixel size in the table, then upload the SVG. In Canva this is an upload, not a brand template from Canva's library. In Figma, place the SVG and edit the text layers. For print, add bleed in the editor. The SVG is the design area.

Sample names and offers in these designs are fictional. Replace them before you publish. This package is not a native Canva file.
