Night-market poster

SVG files you can upload. Not a native Canva template.

A 1080 by 1920 story poster for the fictional Braamfontein Night Market. It states the date, the hours, and which gate to use. It does not list every stall.

Files and sizes

File	Pixels
night-market-story.svg	1080 x 1920

How to edit

1. Change the date every time the market moves.
2. Keep the gate instruction. People arrive at the wrong corner.
3. Export a story PNG and a printed A3 from the same SVG.

Canva, Figma, and print

Create a design at the pixel size in the table, then upload the SVG. In Canva this is an upload, not a brand template from Canva's library. In Figma, place the SVG and edit the text layers. For print, add bleed in the editor. The SVG is the design area.

Sample names and offers in these designs are fictional. Replace them before you publish. This package is not a native Canva file.
