Cafe loyalty card

SVG files you can upload. Not a native Canva template.

A loyalty card for fictional Compass Coffee. Ten stamps, and the tenth coffee is the reward. The terms are one line: one stamp per visit, not per cup in the same order.

Files and sizes

File	Pixels
loyalty-card.svg	1600 x 900

How to edit

1. Change the reward if you are not giving a coffee.
2. Print on card and cut. The SVG includes ten empty circles as the stamp row in the line text.
3. Tell staff the one-stamp rule so the card matches the counter.

Canva, Figma, and print

Create a design at the pixel size in the table, then upload the SVG. In Canva this is an upload, not a brand template from Canva's library. In Figma, place the SVG and edit the text layers. For print, add bleed in the editor. The SVG is the design area.

Sample names and offers in these designs are fictional. Replace them before you publish. This package is not a native Canva file.
